Thes best shooter ever made, and the easily the best Rainbow Six ever made to date. This supersedes the "wannabe" R6 titles including Lockdown, Vegas 1, 2 and Siege. Ever since Ubisoft Paris took over the series, it has been a joke.. A bad remake of spy hunter. Takes all the simplicity of the loved Pako and throws in all away. Thanks for ruining the name Pako! Tree Men Games can't even fix bugs on their mobile version much less Steam Pako and now they wanna make a game in a completely new direction. Sounds like Jesse doesn't know how to manage his team! Update Android Pako with last vehicle used is first available like previous versions, and low camera angle and fix gamepad support on Steam Pako as it has serious bugs and an auto spin glitch where the user can't turn their vehicle! Then maybe a sequel is up your alley.. This game is SO CLOSE to being perfect. It is a 10 chapter escape game and, as an escape game, it is top notch. The graphics would be great except it is Too Dark in a lot of places and there are no controls in the game to correct this.

I found a bug in chapter 9 but getting Any Response from the developers is Impossible. Tried to contact them for weeks with No Response.

But, that being said, you can always start a chapter over which will reset everything and, hopefully, you will get a different set of circumstances that will let you complete the chapter. (That worked for me)

About starting a chapter over: You Cannot save a chapter once you start it. The game will automatically save the game after you complete each chapter. SO, if you are in the middle of a chapter and close the game, everything will be lost and you will have to start that chapter from the beginning when you play again. BUT....And This Is Important...Any notes that you had from the chapter that you didn't finish should be thrown away because Each Time You Start A Chapter Everything Will Change (lock numbers, key locations, etc. etc.)

Now that all of the nit-picking is over, I must say that it is really a good game. Well worth the 9 bucks that they are asking. The puzzles make sense and aren't far fetched nonsense that you would need a walk-through to finish. However if you Do Look At A Walk-Through, you will knock yourself in the head because you will immediately realize that you didn't really need the walk-through in the first place if you would have just taken some more time to....think. All of the information needed to solve each chapter is actually IN each chapter.

Take your time.

If you have an old brain like mine, keep a notepad handy.

And then settle in for a Really Good Escape Adventure.

If you like escape settings and puzzles than order this immediately. Like I said earlier: "Nine Bucks!" and I'm already over 12 hours into it.

. Great puzzle game!

If you love Portal and Portal 2, you will love this game aswell!

Gateways is a lot harder then Portal or Portal 2!

It's a lot of fun

9V10. **2D fighting game mixing traditional Anime style + King of Fighters style system mechanics**

TLDR: Fun game, nice atmosphere, cool characters. King of Fighters-esque system mechanics.

- **Do the super, get big damage**
- **Helpful character specific banners on the sides of the game window containing your characters special moves and supers.**
- **Interesting characters, though the roster is small, so you might have trouble finding someone you click with**
- **Poor translation work. You get the gist of it, but it looks to be written by a child, lol. [*V]**

I used to have a review for this, but I decided it needed a second, more detailed look.

"Party" of Sin is an appropriate name, as it is clearly meant for a group of friends. Solo, the game is barely playable. Puzzles require quickly swapping back and forth between characters, and there are seven to manage, which is pretty difficult solo, especially if you're trying to get one of the time trials. However, it's local co-op only. No online play. Not even LAN. Local only.

The keyboard controls are almost impossible to manage. The game was clearly made with a controller in mind. Unfortunately, the controller controls can't be rebounded, so hopefully you like the ones they give you. Which you shouldn't, because they're nonsensical.

My biggest gripe with this game is a pretty petty one, but it's a huge pet peeve of mine. All the depictions of the seven deadly sins are based on the perpetrators of the sins: Wrath is an angry demon, Pride is a handsome dude, Sloth is a lazy girl, etc... except, obviously, Lust, who is a scantily-clad woman with a whip. I'm kind of sick of seeing this in every modern depiction of the seven deadly sins. Either have them all be the perpetrators, or all be the victims. Stop making Lust the only exception for titillating to the hetero male market. And this is from someone who *likes playing the hot female characters in things. It's blatant pandering, and it gets completely ignored.*

If you have a friend or two and a bunch of controllers, it can be a fun puzzle platformer for a few hours. But otherwise, I'd stick to vandalizing churches.

4\10, I don't know anyone at this party and the host isn't old enough to serve booze.. A great game with a nice sense of humor and most importantly really well designed puzzles.

Definitely recommended for every fan of puzzle games.. Great music game if you like DJ Max.. Total bare bones here. So far it only shows potential without showing much else. I wandered around a bit. Got eaten a few times. Felt very paranoid at every little sound, which was a good thing.

I'll thumb it up for now based on the potential. Will update this review as the game updates.. Good thing it's free because this is the most bare minimum I've ever seen something labeled as dlc. Iea epic rune for each weapon to make the game easier(if you still haven't beaten this masterpiece) and a reskin for Talion.

**Elven Grace(sword): 50% chance to reduce melee damage by 50%*

**Ascendant(bow): Reduce focus depletion rate by 50% (I actually already had this one)*

**One With Nature(dagger): Immune to poison*

ps. I noticed it may have lagged my game but I'm still going to recommend since it's freely added on so it can be freely turned off.. I laughed a whole bunch and had a really nice time. Super nice antedote to a mad stressful day.
