About This Game

Ultimate battle action!

Using the previous installation, "GUILTY GEAR XX ΛCORE CORE" as the base, players can perform "Gatling combos" by simply pressing attack buttons in sequence; or launch their opponents into mid-air with the overhead "Dust" attack; or cancelling their character's current motion to allow for more follow-ups with the "Roman Cancel"; keeping everything that makes a GUILTY GEAR game, while fine-tuning everything to reach optimal balance!

Full 25 characters cast!

Accent Core Plus marks the return of fan favorites Kliff Undersn and Justice, rounding out the cast of 25 playable characters. And in the latest Plus R version, they have been fine-tuned for more competitive play!

Refined skills, polished strategies

Based on the large amount of players' feedbacks on the previous installation, "GUILTY GEAR XX ΛCORE CORE", all characters have been closely examined and further tweaked for optimal battle performance! The entire cast have their core concepts revised and re-evaluated; balances are in place to bring out the most variation among the cast, with the ultimate aim to liven up the heat of every battle!
Devise new strategies with each character as you play!
